During off-peak hours, the price per kWh is 0.138€ , and the price during peak hours is 0.1736€. Here are the 5 cheapest electricity suppliers in France in October of 2025.

How many electricity suppliers are there in France?

Founded by ELDs in the Oise and the Somme, Proxelia offers an electricity offer with a reduction in both the subscription and the price per kWh. On the French market, EDF, Engie, TotalEnergies and Eni are the main electricity suppliers. All in all, 32 electricity suppliers are in the French market in October of 2025.

What is the cheapest electricity supplier in France in October 2025?

All in all, 32 electricity suppliers are in the French market in October of 2025. Thus, a lot of interesting alternatives in terms of price and green energy offers exist instead of EDF's Tarif Bleu. In October of 2025, the cheapest electricity supplier is Primeo.

What happens if a market is oversupplied in France?

In France, some dynamic offers even allow exposure to negative prices (which occur on the exchange during oversupply); conversely, prices can occasionally jump to extreme highs (European market rules allow prices up to around €3,000-4,000/MWh in scarcity situations).

What taxes are added to a power supply?

Firstly, the standing charge (abonnement), determined by the power supply installed and secondly, the consumption of electricity units. TVA (Value Added Tax) is applied at 20.6% on the standing charge and 19.5% on the consumption. Local taxes (taxe commune/département) are added at around 12%, before TVA.
