PV AC combiner box container

Overview

PV AC combiner box is designed for photovoltaic systems that utilize string inverters. This combiner box is strategically placed between the AC output of the inverter and the grid connection or load. What is a PV AC combiner box?

The new PV AC Combiner boxes have been designed for PV systems with string inverters in trackers or fix tilt systems. The product portfolio is suitable for inverters from 60 kW up to 200 kW and support voltages of 400 V, 690 V or 800 V AC. The combiner boxes allow to collect from 2 up to 6 string inverters in one single cabinet.

Which AC combiner is best for a PV system?

There are several models to choose from, which are widely suitable for various AC combinations of PV systems. The AC combiner is a highly reliable device and should be used with a series PV inverter with an AC output voltage of 800V. There are several models to choose from, which are widely suitable for various AC combinations of PV systems.

What is an AC combination box?

The AC Combiner Box is a critical protection and distribution device in photovoltaic (PV) string inverter systems. It connects multiple PV string inverters to the main AC power grid safely and efficiently. Designed to meet the demands of outdoor installations, it offers IP65 protection, ensuring durability in harsh environmental conditions.

What is an AC combiner box?

The AC combiner box plays a key role in consolidating AC output from multiple string inverters before routing it to the grid or main AC distribution board. It ensures safe and organized connection, circuit protection, and monitoring—helping integrators simplify complex wiring and reduce site workload. Telecom or remote off-grid AC power management.

What is a DC combiner box?

DC combiner boxes link PV inverters and PV arrays, combining the output of a large number of strings to improve PV performance. Through the design of our combiner box, we enable easy integration of additional functions, such as the inclusion of switches and a second MPPT.

What is PV AC lightning protection combiner box series?

PV AC lightning protection combiner box series products of the company is specially designed to meet this requirement, Can be composed of PV inverter products matching with complete PV system solutions.
