Portuguese lithium-ion energy storage battery manufacturer

Overview

CALB is a high-tech new energy company specializing in the research, development, production, and sales of lithium-ion power batteries. Will a lithium battery factory be built in Portugal?

According to the latest report on February 21st, battery manufacturer CALB will invest 2 billion euros (approximately Yuan 15.1684 billion) in Sines, Portugal to build a lithium battery factory aimed at providing high-performance energy storage batteries for the European electric vehicle industry.

Can Portugal build a fully integrated lithium supply chain?

Alongside Spain, Portugal is leveraging its abundant lithium deposits to build a fully integrated supply chain, covering: Strengthening Europe's battery ecosystem by reducing reliance on Chinese manufacturers will enhance supply chain security and create a more resilient local production network for lithium-ion batteries.

When will a lithium battery factory be built?

The project is expected to start construction this year and is scheduled to be completed in 2028. The factory is expected to have an energy storage production capacity of 15 GWh and will adopt the latest generation of lithium battery technology, committed to becoming an important supplier to the European electric transportation industry.

Who makes movitrom batteries?

MovitroM Lda. MovitroM, Lda. is a leading distributor and manufacturer of industrial batteries in Portugal, offering a variety of battery types including lead acid, nickel-cadmium, and lithium-ion, which are essential for applications in telecommunications, power plants, and renewable energies.
