Power connection sequence of mobile power box

Overview

What is a powersafe sequence mate box?

The Powersafe Sequential Mating box is a three phase power distribution board designed for use with temporary electrical installations with a current rating of up to 800amps. The sequence of connection and disconnection is controlled to ensure safety circuits are connected first and disconnected last (first mate last break).

What is a powersafe sequence box?

As a result, Powersafe Sequential Boxes are the power and energy industry's safest generator sockets. Data Centre and Temporary Power Distribution professionals choose the box for its added safety benefits, such as a rear fail-safe switch that will cut electrical power if tampering occurs.

What is a powersafe box?

The Powersafe box incorporates an integral shutter mechanism which controls the connection sequence. The unit accepts connection of Powersafe line connectors and other branded single pole connectors. The power distribution box comes in both source and drain versions and in two panel sizes, 88mm and 108mm.

What is a high-voltage shore power connection box?

The high-voltage shore power connection box applies to the IEC80005-1 standard for shore power interface, and meets the requirements of the latest IEC ARC protection for shore power interface. 1□Meet the requirements of IEC80005-1 standard for shore power interface.

What is a Powerlock box?

A powerlock box is an electrical connection point that enable emergency power to be quickly and safely connected in the event of failure of the mains supply. The sequential power distribution box allows earth and neutral lines to

be connected to circuits before the electrical live lines. Therefore the powerlock box.

How does a power distro Box mate?

The electrical distribution box mates with standard Powersafe single pole connectors. with all ports keyed and colour coded for sequential mating, therefore ensuring ground is connected as ' first mate last break ' (FMLB). In addition, as a safety measure for electrical power professionals, the power distro box has IP2X finger-proof protection.
