# Public Battery Energy Storage Station

## Overview

---

Will Tesla build a grid-scale battery energy storage station in China?

Tesla has officially signed a ¥4 billion (C\$764/US\$557 million) deal to build its first grid-scale battery energy storage station in China, leveraging its Megapack technology.

Where is Tesla building a battery storage facility?

Plus Power's Gambit Energy Storage in Angleton, Texas. Tesla has signed its first agreement to build a utility-scale battery storage facility in China, marking a significant step in the U.S. automaker's global energy strategy.

Will Tesla build a battery storage facility in China?

Tesla has signed its first agreement to build a utility-scale battery storage facility in China, marking a significant step in the U.S. automaker's global energy strategy. The deal comes at a time of tense U.S.-China trade relations, which worsened after President Donald Trump imposed sweeping tariffs on Chinese goods— now on pause.

What is a utility-scale battery storage system?

Utility-scale battery storage systems play a critical role in balancing electricity grids, especially in countries like China that are aggressively scaling up solar and wind installations. Such systems help smooth out supply volatility by storing energy during periods of surplus and discharging it during peak demand.

Why is Tesla building a large-scale energy storage facility in China?

Their growing use helps stabilize power grids, prevent outages, and reduce reliance on fossil fuels. This project is Tesla's first large-scale energy storage installation in China, complementing its existing automotive manufacturing presence in the city through Giga Shanghai.

How many kilowatts can a Tesla Megapack store?

Tesla's energy storage plant in Shanghai's Lin-gang Special Area commenced operation on Feb 11, as the assembly line started the production of the first Megapack unit. The Megapack, which is an advanced battery system designed for large-scale energy projects, can store more than 3,900 kilowatt-hours of electricity in a single unit.
