Senegal PV Inverter

Overview

Is Ten Merina a solar power project in Senegal?

This is Meridiam's second solar power project in Senegal, delivering an additional reliable supply of low-cost and low-carbon electricity. Overall, Ten Merina is a significant contributor to Senegal's installed solar PV capacity and is providing clean and affordable power to more than 200,000 Senegalese people.

How many people in Senegal will get solar power?

Nearly 540,000 people in Senegal will get access to clean and affordable power following the launch of two solar photovoltaic (PV) plants, financed by IFC, the European Investment Bank and Proparco, under the World Bank Group's Scaling Solar program.

Does Senegal need a solar power plant?

Senegal's power sector has been historically reliant on costly fuel imports, with about 80 percent of its energy mix being oil-based. "The Kael and Kahone solar power plants exemplify our commitment to supporting Senegal's transition to cleaner, more affordable energy, while creating business opportunities for local communities.

Which solar power plants are the cheapest in Sub-Saharan Africa?

"Proparco is delighted with the successful commissioning of the Kahone and Kael solar power plants, which constitutes a new milestone in Senegal's low carbon transition. The price of the electricity produced by these projects is one of the cheapest in sub-Saharan Africa.

Which Senegal power plants have a 60mwac capacity?

The two plants that launched operations last month are located in Kael and Kahone in Western Senegal and have a total capacity of 60MWac.

Who sponsors Senegal's energy plants?

The two plants are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments (FONSIS). The competitive tendering was led by Senegal's Energy Regulatory Commission (CRSE).
