Site Energy Battery

Overview

Is a battery energy storage site coming to Staten Island?

One of the nation's largest battery energy storage sites is coming to Staten Island. Here's why residents are concerned. - CBS New York One of the nation's largest battery energy storage sites is coming to Staten Island. Here's why residents are concerned.

What is a battery energy storage system?

Battery energy storage systems (BESS) stabilize the electrical grid, ensuring a steady flow of power to homes and businesses regardless of fluctuations from varied energy sources or other disruptions. However, fires at some BESS installations have caused concern in communities considering BESS as a method to support their grids.

How will a 100MW battery energy storage system work?

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the 100MW battery energy storage project will be able to discharge electricity to the grid particularly during peak demand.

What is nycida's largest battery energy storage project?

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. When built, the facility will be able to hold up to 100 megawatts (MW) and power over tens of thousands of households.

Are battery energy storage systems regulated in New York City?

Battery energy storage systems in New York City are rigorously regulated, with oversight from the safety industry, federal, state, and local authorities. All code, location, spacing, and other local requirements must be met.

Why is Con Edison funding a battery system?

“The financing is a significant step toward placing the latest energy storage technology on the site of a former fossil fuel power generation plant that burdened local residents with polluting emissions. The battery system will be capable of storing renewable energy and move our state closer to meeting its climate goals, which Con Edison supports.”
