# Solar Antifreeze Container Price

## Overview

---

Several variables influence the pricing of solar antifreeze, starting with formulation differences. Ethylene glycol-based products tend to be less expensive but present safety risks, especially in residential applications.

Several variables influence the pricing of solar antifreeze, starting with formulation differences. Ethylene glycol-based products tend to be less expensive but present safety risks, especially in residential applications.

The cost of solar antifreeze varies widely based on the formulation and manufacturer, typically ranging from \$10 to \$30 per gallon, 2. The expense can also depend on the supplier and any potential shipping fees, 3. An important factor is whether the antifreeze is specifically designed for solar.

Virgin (not recycled) propylene glycol with triple protection inhibitor package, formulated for use in closed loop antifreeze heat exchanger systems. Can also be used in radiant tube heating systems, and geothermal loops. Hercules' exclusive triple protection formula stabilizes pH to prevent acid.

Error The quantity entered must be a multiple of 1 - for example, 1, 2, 3, and so on. Hercules® Cryo-Tek™ Solar System antifreeze is a blend of virgin propylene glycol and high purity additives formulated for use in closed loop anti-freeze heat exchanger systems Select to rate the item with 1 star.

Protect your heating and cooling systems during extreme conditions with this Hercules by Oatey Cryo-Tek solar antifreeze! Completely ready to use, this antifreeze provides outstanding freeze protection in addition to corrosion prevention. It contains a blend of virgin propylene glycol and triple.

Hercules Cryo-Tek 5 gal -100 Antifreeze is a ready to use 55% Virgin Propylene Glycol formula. It's designed for hydronic heating and cooling closed loop systems, most solar heating systems, snow melts, radiant heat and general plumbing systems. Behold the power of Hercules, products built to last.

Is a blend of virgin propylene glycol and high purity additives formulated for

use in closed loop anti-freeze heat exchanger systems. Blend of virgin (not recycled) propylene glycol and exclusive Triple Protection additives. Plumbers have come to trust the Hercules offering to provide the highest. Does Home Depot sell antifreeze?

To verify or get additional information, please contact The Home Depot customer service. Hercules Cryo-Tek 5 gal -100 Antifreeze is a ready to use 55% Virgin Propylene Glycol formula. It's designed for hydronic heating and cooling closed loop systems, most solar heating systems, snow melts, radiant heat and general plumbing systems.

How much does cryo-Tek antifreeze cost?

Cryo-Tek 5 gal. Non-Toxic Corrosion-Resistant Antifreeze Pay \$153.53 after \$25 OFF your total qualifying purchase upon opening a new card. Receive an email when this item is back in stock. Return this item within 90 days of purchase. AI-generated from the text of manufacturer documentation.

How much does Oatey cryo Tek antifreeze cost?

Oatey Cryo-Tek 5 gal. Non-Toxic Corrosion-Resistant Antifreeze 35284 - The Home Depot Cryo-Tek 5 gal. Non-Toxic Corrosion-Resistant Antifreeze Pay \$153.53 after \$25 OFF your total qualifying purchase upon opening a new card. Receive an email when this item is back in stock. Return this item within 90 days of purchase.

What is the best antifreeze for a hydronic heating system?

This is the real stuff and its concentration is 50% propylene glycol. The alternative, Century antifreeze from Aqua-Hot, is only about 35% by specific gravity and costs a lot more per gallon. The price/gallon for this Cryo-Tek makes this the most economic to use to replenish any losses from your hydronic heating system.

Can you use marine antifreeze in a hydronic heating system?

Remember, you cannot use marine antifreeze in a hydronic heating system because the marine type, which is used for winterizing, does not have the added preservatives required by your heating system and automotive antifreeze can't be used either because it has toxic ethylene glycol. Helpful?
