Why should you choose a factory-direct solar panel manufacturer?

As a factory-direct manufacturer, we control every aspect of the production process, from the sourcing of materials to the assembly of the final product. This allows us to maintain strict quality control and ensure that every wholesale solar panel kit we produce meets the highest industry standards.

Do wholesale solar panels come on pallets?

Our wholesale solar panels come on pallets, offering you the perfect wholesale solar panel solution for larger projects or resellers. Whether you're outfitting a commercial property or stocking up for a residential install, these pallets of solar panels provide high-quality performance at unbeatable prices.

Why should you buy solar panels wholesale?

Solar panels can be very different in terms of cost, and several factors impact the final price, such as wattage, brand, type of panel, warranties, etc. Whatever brand you pick, its solar panel wholesale price is lower than retail, so you end up saving a lot.

What is a wholesale solar panel kit?

Maxbo's wholesale solar panel kits are built with high-efficiency photovoltaic cells that capture more sunlight and convert it into electricity, even in less-than-ideal conditions. Our panels are constructed using robust materials that are designed to withstand harsh weather conditions, such as heavy snow, wind, and extreme temperatures.

Why should you buy wholesale solar panel kits from Maxbo?

One of the biggest advantages of purchasing wholesale solar panel kits from Maxbo is our factory-direct pricing model. Because we design, manufacture, and distribute our own products, we can eliminate the middlemen and pass the savings directly to our customers.
