Solar panel greenhouse cost in Vietnam

Overview

- Solar costs average from 10-20 million VND/kWp, depending on system type (grid-tied or storage) and equipment quality. Solar panels: Major cost, with mono, poly, and multi-crystalline types. Why is the Vietnam solar panel market growing?

The Vietnam solar panel market is witnessing significant growth, driven by increasing energy demands, government support for renewable initiatives, and a shift towards sustainable energy sources.

How much does a solar project cost in Vietnam?

Vietnam's Ministry of Industry and Trade (MIOT) recently introduced new ceiling prices for solar and wind projects that sell electricity to Electricity of Vietnam (EVN). The ceiling price for ground-mounted solar has been slashed from \$0.0709/kWh to \$0.0502/kWh, threatening the financial viability of large-scale solar projects.

How much does a ground-mounted solar project cost in Vietnam?

The ceiling price for ground-mounted solar has been slashed from \$0.0709/kWh to \$0.0502/kWh, threatening the financial viability of large-scale solar projects. Vietnam's Ministry of Industry and Trade (MIOT) has set new price ceilings for the so-called "transitional" wind and solar projects.

How much solar power does Vietnam have?

According to the International Renewable Energy Agency (IRENA), the installed solar power capacity, which is the maximum capacity that a solar system is designed to run at in Vietnam, accounts for more than a third of Vietnam's total renewable energy capacity at 18,854 GW in 2023.

Why should foreign investors invest in solar energy in Vietnam?

Vietnam's solar energy market, driven by high solar potential and strong government support, plays a key role in the country's "Net Zero"

commitment, among other fields of green energy. For foreign investors, this presents a golden opportunity to tap into a rapidly growing sector with sustainable impacts.

What is the demand for solar panels in Vietnam?

Growing awareness around sustainability and energy independence among consumers is likely to bolster demand for solar panels moving forward. The Vietnam solar panel market can be segmented into several categories based on types of panels used and end-use applications: Cristal Silicon: The most predominant type due to its high efficiency.
