Solar panel quick-install profiles and prices

Overview

How much does a solar panel installation cost?

One of the biggest cost factors for your solar panel installation is the size of the system you have installed. System size is measured in kilowatts (kW) and is determined by household energy consumption. The average cost per watt is \$3.04, but larger systems often have a lower cost per watt.

How much does a home solar system cost?

According to studies by the U.S. Department of Energy, the all-in cost of a home solar panel system is between \$2.74 to \$3.30 per watt. ^{1,2,12} This figure includes the solar panels, the installation, and other expenses. Using these numbers, an average-sized 8-kilowatt residential solar system would cost between \$21,900 - \$26,400.

How much does solar cost per square foot?

The average system cost only drops by \$1,000 and the cost per square foot increases to \$12.83. Installing less solar will lower your cost but on a non-linear basis as there are a lot of fixed costs for installers to design, permit, and install your system.

How much does it cost to install solar panels before tax credit?

The average cost to install solar panels before tax credit swings wildly across the country - sometimes by more than \$20,000 for identical systems. Take California and West Virginia, for example. A typical home solar system costs around \$20,000 in California but jumps to \$45,000 in West Virginia. That's not a typo - it's more than double!.

How much do solar panels cost per watt?

The average cost per watt for solar panels in the U.S. is \$2.84 for residential systems. High-efficiency monocrystalline panels tend to be at the higher end of the price range, but they generate more power with fewer panels—ideal if

you have limited roof space.

Why do solar panels cost so much?

Where you live can heavily influence both the costs and installation practices for solar panels, which is why location is so important when considering your solar investment: Northeast: Generally, this region sees higher installation costs due to labor and equipment expenses.
