

## Kongres Container

# Solomon Islands Solar Courtyard Small

## Overview

---

How much will a solar PV project cost in Solomon Islands?

Component 3: US\$ 2.5 million is allocated to add grid-connected solar power to contribute to the overall share of renewable energy in Solomon Islands' energy mix.

How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.

How many solar homes are there in the Solomon Islands?

“Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems,” said Mr Aimaea.

What is the Asian Development Bank doing in Solomon Islands?

The Asian Development Bank is working with the Government of Solomon Islands and Solomon Power to convert electricity networks in five provinces almost entirely to solar power. The project will reduce the need for costly shipments of diesel to the provincial centers. LATEST PROJECT DOCUMENTS 1.
