# Somaliland installs energy storage project

## Overview

---

Summary: The Somaliland energy storage power station has entered its active construction phase, marking a critical milestone for renewable energy integration in East Africa. This article explores the project's progress, technological implications, and how it aligns with.

Summary: The Somaliland energy storage power station has entered its active construction phase, marking a critical milestone for renewable energy integration in East Africa. This article explores the project's progress, technological implications, and how it aligns with.

The Somali government has kicked off a tender for the design, supply, installation, testing and commissioning of a 55 MW solar plant with a 160 MWh battery energy storage system (BESS) in Mogadishu. The deadline for applications is April 14, 2025. Somalia's Ministry of Energy and Water Resources.

The Government of Somaliland has received financing from the World Bank toward the cost of Somali Electricity Sector Recovery Project, and intends to apply part of the proceeds toward payments under the Contract Design, Supply, Installation, Testing, and Commissioning of 12MWp Solar PV Power Plant.

Contract title: Design, Supply, Installation, Testing, and Commissioning of 12MWp Solar PV Power Plant with 36MWh of Battery Energy Storage System Including a 13.5km of 33kV Evacuation line for BEC, Berbera , Somaliland.  
Country: Somaliland Loan No. /Credit No. / Grant No.: D9310 RFB No:.

Somalia's Ministry of Energy and Water Resources has launched a significant tender for a large-scale hybrid solar and battery energy storage project in northeastern Somalia. The initiative, part of the Somali Electricity Sector Recovery Project, seeks to expand the nation's renewable energy.

The Ministry of Water Resources in Somalia has launched a tender for the development of a 10 MW hybrid solar-plus-storage plant as part of the Somali Electricity Sector Recovery Project. This project, which includes the design,

supply, installation, testing, and commissioning of a 10 MW solar plant.

The Government of Somaliland has received financing from the World Bank toward the cost of the Somali Electricity Sector Recovery Project. The Ministry of Energy and Minerals, Somaliland, has issued a tender for the design, supply, installation, testing, and commissioning of hybrid/off-grid solar.
