# Swiss invests in containerized energy storage company

## Overview

---

Switzerland-headquartered developer MW Storage contracted Alpiq to manage and operate the 20MW / 18MWh containerised battery energy storage solution in the resort town of Brunnen, in the Swiss municipality of Ingenbohl.

Switzerland-headquartered developer MW Storage contracted Alpiq to manage and operate the 20MW / 18MWh containerised battery energy storage solution in the resort town of Brunnen, in the Swiss municipality of Ingenbohl.

In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is currently under construction, with a total capacity of 65 megawatt-hours. The successful delivery of all system components marks a key milestone on the path to commissioning. Primeo Energie will use.

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's largest. The companies inaugurated the newly expanded project last week in a ceremony last week (24 May), which adds 8MW.

Intilion has delivered the grid-scale battery energy storage system (BESS) from Asia; via Rotterdam, inland waterways, and a warehouse near the project site. German system integrator Intilion has delivered all the components for one of Switzerland's largest standalone BESS. "In addition to the.

The global challenge is not only to produce more energy from renewable sources, but also to be able to store it. With its hydroelectric power plants in the Alps and innovative projects, Switzerland is contributing to the search for solutions for the efficient, long-term storage of electricity. I.

Energy Vault is the creator of sustainable energy storage solutions designed to accelerate the transition to a carbon free, resilient power grid and transform the world's approach to utility-scale energy storage. Energy Vault works to combat climate change by enabling clean and reliable electricity.

gestiftung Clean Energy Infrastruktur on an investment in Switzerland's

largest battery storage facility. The construction of the pioneering project in Bonaduz in the canton of Graubünden will start at the beginning of 2026. Avadis Anlagestiftung will be the owner of the facility, while the Swiss.
