# Tax rate for Austrian energy storage power exports

## Overview

---

Why are energy statistics important in Austria?

Energy statistics in Austria are crucial for our daily lives and for our economy, and energy statistics carry particular importance as well; this is also reflected in the way powers and duties are distributed.

How much electricity is stored in Austria in 2022?

At the end of 2022, electricity storage in Austria stood at 2.4 TWh (73.8%). Electricity storage is crucial for consumer behaviour in 2022. About 94.3% of the over 1.2m customers on the Austrian gas market are households, but they only account for 18.6% of consumption. Non-households (including gas-fired power plants) make for the remainder.

What are the tax exemptions in Austria?

There are also tax exemptions for certain transactions. A distinction is made between genuine exemptions, e.g. for exports to third countries, and non-genuine exemptions, e.g. for insurance, medical services or small businesses. The reduced tax rates of 10 per cent and 13 per cent. The 20 per cent tax rate is the standard tax rate in Austria.

What is the difference between Statistics Austria and E-control?

A major difference between statistics drawn up by Statistics Austria and those produced by E-Control consists in that the former must comply with the rules for energy balances and in particular for international comparability, while the latter depict commercial

What are the tax rates in Austria?

The reduced tax rates of 10 per cent and 13 per cent. The 20 per cent tax rate is the standard tax rate in Austria. Sales in respect of which the tax rate of 10 per cent or 13 per cent is applied are the exception. These are listed in full in section 10 of the Umsatzsteuergesetz.

What data does Austria collect?

Apart from Statistics Austria, the Federal Ministry of Economy, Energy and Tourism (oil products) and E-Control (electricity and natural gas) also collect price and tax data which are used for the compilation of the statistics. Preliminary data for the previous year are published in March, final data in December. The chart has 1 X axis displaying .
