Thailand Energy Storage Project Enterprise

Overview

Is energy storage a viable business model in Thailand?

The Provincial Electricity Authority (PEA) of Thailand will explore the feasibility of energy storage business models in collaboration with Nuovo Plus, a subsidiary of state-owned oil and gas company PTT Group.

Does Thailand need a battery energy storage system?

Thailand may lack the Battery Energy Storage Systems (BESS) necessary to navigate supply and demand challenges. The 2024 PDP draft included 10,000 MW of BESS, but this may see the country struggle to fulfil carbon neutrality and Net Zero commitments over the coming decades.

How many mw can a solar generator store in Thailand?

Their total combined storage capacity was 994 MW. Interestingly, this allowed generators to sign semi-firm power purchase agreements (PPAs) with the Electricity Generating Authority of Thailand (EGAT) with minimum availability guarantees. Many solar projects in Thailand have non-firm PPAs in place due to a lack of storage on site.

What is the future of energy storage in Asia?

The peak is projected to grow to 56.1GW by 2037, while renewable energy's share of the electricity generation mix will increase to 51%. Energy-Storage.news' publisher Solar Media will host the 2nd Energy Storage Summit Asia next week, 9-10 July 2024 in Singapore.

What is a battery energy storage system?

Battery energy storage systems (BESS) are essential for buildings and renewable power generation facilities to ensure uninterrupted electricity supply. Renewable sources like solar and wind power are intermittent, and influenced by weather patterns. BESS mitigates this issue by storing electricity for future use.

Can Bess create business opportunities in Thailand?

Watcharin Boonyarit, director of solar energy development at the Department of Alternative Energy Development and Efficiency, noted the potential for BESS to create business opportunities as Thailand transitions to renewable power sources. “We should not only import BESS but also consider new investment projects in this battery business.”
