# The most affordable outdoor power supply

## Overview

---

In 2024, there are several affordable power stations that provide the performance you need without breaking the bank. You might be surprised by options like the Anker SOLIX F2000 or the Dabbsson DBS2100Pro, which combine efficiency with impressive capacities. What is the best portable power station?

I've put over 120 portable power stations to the test to discover the absolute best. My top pick for an affordable option is the EcoFlow River 2 -- right now priced at the crazy low price of \$199, it delivers an impressive 600W of power.

Is it a good time to buy a portable power station?

With prices dropping, it's a great time to think about investing in one of the best portable power stations. I was impressed by the options in my test, and would recommend any of them to first-time power station purchasers.

Are portable power stations worth it?

Portable power stations are more powerful and cost effective than ever before. And, thanks to advances in lithium-ion battery technology, they're also lighter and more compact. Whether you've been dreaming of van life or are building out your emergency kit in advance of that next blackout, there is a power station that will meet your needs.

What is the best portable power solution for camping & off-grid living?

Anyone seeking a reliable, portable power solution for camping, emergencies, or off-grid living should consider the EF ECOFLOW DELTA2 with its 220W solar panel. It offers a 1024Wh capacity, 1800W continuous output, and 15 outlets to power appliances, lights, and devices.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the

actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

How much does a power station cost?

A cheap, super-portable power station. This one has everything you need and comes in at \$239. A cheap, portable power station offering a broad array of ports and a decent power output for just \$239. A big power station available for a low price. If you want a lot of battery capacity, this is the one for you.
