# Togo solar Energy Storage Battery Plant

## Overview

---

The 25 MW Dapong solar project will include 36,000 solar panels across 52 hectares, along with 36 MWh of battery energy storage. It is expected to serve about 145,000 people in the city of Dapaong. China's TBEA International Engineering is handling the project's design.

Togo is taking a significant leap forward in its energy transition by launching a 55 MW pilot project for battery storage. This ambitious initiative, backed by a €25 million loan from the French Development Agency (AFD) and the Global Energy Alliance for People and Planet (GEAPP), is set to.

The phase three expansion of Amea Power's Blitta solar PV and battery energy storage plant in Togo was formally launched by President Faure Gnassingbé on 22 March. Blitta - officially named the Sheikh Mohammed Bin Zayed Solar Power Plant - was Amea's first African project to be commissioned, in.
