

## Overview

---

How many solar panels are installed in Odessa?

Activ Solar announced the commissioning of a 43.4 MW solar plant in southwest Odessa, which comprises 181,192 multicrystalline panels installed on one row and connected by 41 inverter stations. It has a capacity of 43.3 MW.

Why are Ukrainian businesses turning to self-consumption solar PV systems?

Following three years of bombardments and damage to its energy infrastructure, Ukrainian businesses are turning to self-consumption solar PV systems to keep the lights on.

How does the war in Ukraine affect PV & storage?

The ongoing war in Ukraine has been a catalyst for PV and storage deployment. Image: Oleg Ivanov via Unsplash. When the shelling gets worse, sales of renewable energy systems increase; when it eases, demand subsides until the shelling starts again. "It's pretty funny," says Artem Semenyshyn, board member at RePower Ukraine Charitable Foundation.
