The Utilities Regulatory Authority (the 'Authority') was established under the URA Act no. 11 of 2007 (as emended) as the economic and technical regulator for electricity and water services in Vanuatu. The Authority is pleased to present this updated 'Electricity Fact Sheet' (EFS) providing.

In the energy domain, there are many different units thrown around – joules, exajoules, million tonnes of oil equivalents, barrel equivalents, British thermal units, terawatt-hours, to name a few. This can be confusing, and make comparisons difficult. So at Our World in Data we try to maintain.

capacity (kWh/kWp/yr). The bar chart shows the proportion of a country's land area in each of these classes and the global distribution of land area across the cl d at a height of 100m. The bar chart shows the distribution of the country's land area in each of these classes compared to the global.

In 2023, the electricity consumption in Vanuatu stands at 250 kWh per person, which is significantly lower than the global average of 3781 kWh per person. This limited power usage is mainly due to a substantial reliance on fossil fuels and a minimal contribution from clean energy sources. What is the energy mix in Vanuatu?

VUI & URA Regulatory Reports Figure 3 illustrates the consolidated energy mix in Vanuatu for all electricity service areas. Energy from thermal source contains the highest share of the energy mix in 2022, similarly to past years. Diesel generation contribution is 81.7 %, followed by hydro contribution of 11.3 %, wind and solar.

What is the electricity market in Vanuatu?

the electricity market in Vanuatu. 3 Generation installed capacity in Vanuatu. Total installed capacity of the available generation resources in Vanuatu as at end of 2021 stood at 33.26MW compared to 31.95MW at the end of 2016, -as shown in Figure 1 below. Appendix 13.1 provides more details of it.

What is the Vanuatu utilities infrastructure (Vui) EFS?

This EFS is an update and replaces the previously issued EFS of October 2019. The Vanuatu Utilities Infrastructure (VUI) signed a Concession Agreement with the Vanuatu Government in June 2019 granting it the exclusive right to operate the Concessions of Luganville and Port Olry as a Concessionaire.

When was OE operating in Vanuatu?

OE) was operating in 2022. The Vanuatu Government had signed a concession contract with VANPAWA2 Ltd to assume the operations of the Tanna and Malekula concession, which they have taken over the generation and supply of electricity.
