Villa energy storage equipment manufacturer

Overview

Villara Energy Systems has launched a new home battery - the VillaGrid. Villa's energy storage system (ESS) harnesses lithium titanate chemistry and offers a 20-year warranty. Who is Villara energy systems?

Villara Energy Systems Vill. Why trust EnergySage?

Villara Energy Systems, located near Sacramento, California, is part of the Villara family of companies (established in 1947), which has been installing home energy equipment (including solar, batteries, and generators) for about 20 years.

How does a villagrid battery storage system work?

Your system connects to a Inverter which converts the DC energy stored in your VillaGrid battery storage system and converts it to usable AC energy that your home appliances can use. The VillaGrid allows you to avoid peak hour charges, reduces your dependence on the energy grid and keeps you running in the event of an outage.

What is villgrid energy storage?

Take a quick tour of the Villgrid energy storage system. Understand the features and benefits it can have onto your monthly electric bill. 10 kilowatts continuous power. Double the power of legacy lithium ion batteries. Lithium Titanate is the safest battery chemistry on the market, with the industry's first non-flammable, carbon-free anode.

How does a villagrid Solar System work?

Your PV (Photovoltaic solar system) collects energy from the sun and stores it in your VillaGrid Storage System. Your system connects to a Inverter which converts the DC energy stored in your VillaGrid battery storage system and converts it to usable AC energy that your home appliances can use.

Why should you choose a villagrid battery?

Lower your energy costs and reduce your dependence on the power grid with the award-winning energy storage system that provides more power, more safety, and the industry's longest warranty. VillaGrid is the longest lasting home battery with the highest power while also being the safest and most efficient battery on the market.

How much does a villagrid Solar System cost?

If you want to install the VillaGrid as part of a solar-plus-storage system, battery costs are just one part of the equation. A 5 kilowatt (kW) solar energy system costs anywhere from \$9,000 to \$15,000, depending on where you live and the type of equipment you choose.
