Base stations offering high-speed fifth-generation (5G) mobile networks have now exceeded 3.19 million, the Ministry of Industry and Information Technology (MIIT) in China has said. The country now hosts 22.6 5G stations for every 10,000 residents, CGTN reported. The 5G mobile networks offer twice.

There were more than 3.8 million 5G base stations in China by the end of May 2024, the latest data from the Ministry of Industry and Information Technology (MIIT) has shown. Zhao Zhiguo, the ministry's chief engineer, announced the number at the Mobile World Congress (MWC), which opened on.

(Yicai) Dec. 13 -- Shanghai continues to lead China in the number of outdoor base stations for fifth-generation mobile network technology, the city's vice mayor revealed. Shanghai has built more than 83,000 5G base stations, also known as cell towers, and over 10,000 three-component carrier.

Chinese mobile operators added 235,000 5G base stations in the first five months of 2025, taking their combined total to nearly 4.5 million, data from the Ministry of Industry and Information Technology showed. The total 5G deployments accounted for 35.3 per cent of all base stations in the.
