# Which is the largest energy storage power station in Congo Brazzaville

## Overview

---

Comprising four 333 MW pump turbines that generate a total of 1,332 MW of electricity, the Ingula Pumped Storage Scheme (Ingula PSS) is a pumped storage power station that encompasses two dams, designed for water capacity of 22 million cubic meters. Does Congo Brazzaville have hydropower?

Congo Brazzaville has significant hydropower potential, estimated at 3.9 GW, but only 5% of this power has been developed. Several hydropower projects are reportedly under consideration for development. The status of projects is unknown, and the projects appear to still be in early stages of development or deliberation (Table 3).<sup>13</sup> Table 3.

Does Congo Brazzaville have natural gas?

Most of Congo Brazzaville's hydrocarbons production is located offshore. Congo Brazzaville holds sizable proved natural gas reserves, but only a small portion of the reserves is commercialized because of a lack of natural gas infrastructure.

Why did Eni build two power plants in Congo Brazzaville?

Eni, the leading natural gas producer in Congo Brazzaville, constructed the two natural gas-fired power plants to reduce natural gas flaring and commercialize more of the associated natural gas produced at its oil fields.

Where is Congo Brazzaville located?

Congo Brazzaville's energy overview, 2021 The Republic of the Congo, or Congo Brazzaville, is a significant regional hydrocarbons producer in sub-Saharan Africa. Most of Congo Brazzaville's hydrocarbons production is located offshore.

Does Congo Brazzaville use coal?

- Congo Brazzaville does not hold any coal reserves and so neither produces nor consumes any coal. Total electricity capacity in Congo Brazzaville showed

a modest increase of about 0.3 gigawatts (GW) from 2013 to 2022, with most of the increase coming from fossil fuel-derived sources.

Does Congo Brazzaville produce crude oil?

Crude oil accounts for most of the total liquid fuels production in Congo Brazzaville; the country produces very small volumes of lease condensate and natural gas liquids. Congo Brazzaville produces and exports three main blends of crude oil: Djeno, N’Kossa, and Yombo (Table 2).
