What is the best outdoor power strip?

My top pick, the APS IPX6 9-in-1 Outdoor Power Strip, is waterproof, durable, and includes a mixture of three-prong outlets and USB plugs. See which other models I recommend below. The outdoor power strips below are the best of the bunch. My selections range from small three-outlet power strips up to large capacity 10-outlet models.

Do all power stations provide a power source?

While all power stations are intended to provide a power source, each model differs in their overall design and included features. Some models have an intuitive mobile app to fully control your power station wirelessly. Others may offer expandable battery capacity, and some are advertised as being used as an uninterruptible power supply.

Are outdoor power strips weather resistant?

Outdoor power strips come in a variety of sizes, from small three-outlet models up to large 10-outlet beasts. Unlike indoor models, these rugged, weather-resistant power strips can endure extreme temperatures and even downpours. Understanding what weather conditions an outdoor power strip is rated to handle is key to purchasing the right one.

Why is a good display important when buying a power station?

A good display goes a long way during times of need, such as during a power outage or out in a remote destination where a functional display becomes critical. While maybe not the first consideration when shopping for a power station, a good display becomes an important factor when the power goes out.

Are outdoor power strips Wi-Fi Ready?

Some outdoor power strips are Wi-Fi ready, allowing them to connect to your home network. These smart power strips can be controlled via a smartphone app, which is ideal for turning on and off holiday lighting displays.
