# Zambia Energy Storage solar Project

## Overview

---

Discover the latest collaboration in renewable energy as GenVision, Tatanga Energy, and AMDG Energy join forces to develop a 300 MW solar photovoltaic power project, featuring 800 MWh of battery storage. Read more about this groundbreaking initiative sourced from Africazine.

Discover the latest collaboration in renewable energy as GenVision, Tatanga Energy, and AMDG Energy join forces to develop a 300 MW solar photovoltaic power project, featuring 800 MWh of battery storage. Read more about this groundbreaking initiative sourced from Africazine.

In an exciting development for Zambia's renewable energy landscape, GenVision, Tatanga Energy, and AMDG Energy have officially signed an agreement to collaborate on a groundbreaking 300-megawatt (MW) solar photovoltaic power project. This ambitious initiative, poised to integrate up to 800 megawatt.

Turkish developer YEO and Zambian sustainable energy company are constructing a 60 MW solar plant with a 20 MWh battery energy storage system in southern Zambia. Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage.

The Board of Directors of the African Development Bank (AfDB) has approved a US\$14.54 million financing package to support the Garneton North 20-megawatt solar project in Zambia's Copperbelt Province, marking a major step in the country's renewable energy drive and efforts to close its electricity.

Zambia is ramping up its renewable energy project pipeline - with at least two major solar projects set to be commissioned this year alongside smaller capacity facilities and another significant plant set for launch in 2026. The Zambia Electricity Supply Corporation (ZESCO) reported recently that.

The Ministry of Energy announced that by September 2025, GEI Power and YEO aim to have a 60MWp solar PV and 20MWh BESS project operational in

Zambia. This endeavour — requiring an investment of \$65 million — is anticipated to alleviate power shortages in the country. GEI and YEO have established a

Zambian developer GEI Power and Turkish energy technology firm YEO are aiming to have a 60MWp PV, 20MWh BESS project in Zambia online by September 2025. The project will require US\$65 million of investment and will assist in mitigating power shortages in the country, the Ministry of Energy said.
